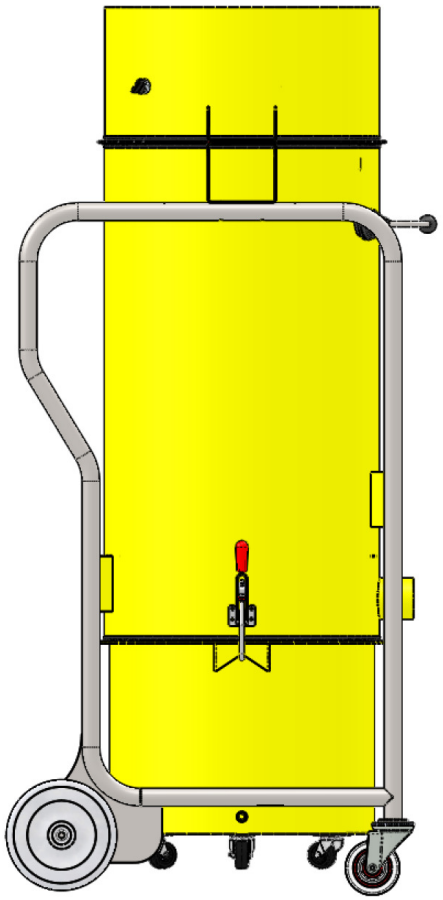
DuroVac™ Industrial Vacuums

Equipment Data Sheet

Portable Vacuums

LIFETIME Series



The DuroVac "LIFETIME Series" is for companies who need to concentrate on WORK and not their vacuum system. **Never shut down production to clean the filters!**

The system is so efficient that even ultra-fine powders like concrete dust, pigments and compounding dust will NOT plug and blind the filters!

When the canister is full, an external handle allows you to completely **clean the filter in just seconds**, so you can get working again .. fast.

The LIFETIME Series vacuum features a quiet, 4000 hour brushless "reluctance" type vacuum producer. Regular vacuums last just 800 hours and less.

Importantly, the LT features a **HEPA filter** as standard that saves your new vacuum from dust damage if ever the primary filters fail (will pass DOP testing easily).

LIFETIME Series Common Features:

- 4,000 hour rated single phase 50/60 Hz motor
- 34.9 sq. ft. of primary filter media
- filter efficiency of **99.9% @ 0.5 microns**, standard
- effective external filter cleaning system
- HEPA 99.97% @ 0.3 micron safety filter, **standard**
- Built in silencer for smooth, quiet operation
- UL / CSA / CE

LIFETIME Series Model Specific Features:

	LT110
System Hp	16.4A (120V)
Longest Hose	50 Feet
Air Flow	320 SCFM
Vacuum (Max)	70" WG
Primary Filter Area	34.9 Sq Ft
Material Storage	20 US Gallons
Noise @ 3ft	77 dBa
Weight	135 Lbs.

The LT110 is the vacuum to buy for 100% dust free operation. It features a long life motor and the rugged construction that contractors demand. Use it with a 2" or 3" hose up to 100 ft long.
